

STUDENTS: VOLUNTEER NEXT SUMMER IN LATIN AMERICA!

Conduct health, education and environmental service projects in Latin America! AMIGOS sends high school and college students to Latin America for 5-8 weeks in the summer, where they live with host families and partner with local community members to carry out projects.

It's the experience of a lifetime!

To learn more about volunteering with AMIGOS next summer, please attend any one of our information sessions (with a parent or guardian).
